

IDEXX Reference Laboratories

Anatomic pathology consultants

Jamie Bush, DVM, MS, DACVP

Anatomic Pathologist

Area(s) of interest: avian pathology, canine reproductive pathology, canine neuropathy, psittacine and oncologic pathology

Dr. Bush is a board-certified veterinary anatomic pathologist with a special interest in psittacine and oncologic pathology. She completed her veterinary training in 2004 at the Kansas State University College of Veterinary Medicine, followed by her residency and MS in 2008 at the Colorado State University College of Veterinary Medicine. She currently lives in Memphis with her two pugs, Nixon and Gianni, as well as her Mexican red-headed Amazon parrot, Rico.

Erin Hardam, DVM, DACVP

Anatomic Pathologist

Area(s) of interest: laboratory animal pathology, soft tissue sarcomas, dermatopathology

Dr. Hardam received her DVM from the Virginia-Maryland Regional College of Veterinary Medicine in 2000 and completed her anatomic pathology training at the University of Pennsylvania School of Veterinary Medicine. At the University of Pennsylvania, she was involved with work on feline pancreatitis, sarcomas of the central nervous system and a novel therapy for pain relief in dogs. Dr. Hardam also spent time working with the San Diego Zoo pathology department.

Shannon Johnson, DVM, MVSc, DACVP

Anatomic Pathologist

Area(s) of interest: anatomic pathology

Dr. Johnson received her BSc from the University of Saskatchewan in 1999 and her DVM from the Western College of Veterinary Medicine (WCVM) in 2003. After graduation, she completed an internship in small-animal medicine/surgery at the Animal Medical Center in New York City. Following the internship, she returned to WCVM and completed a residency and an MVSc in anatomic pathology in 2007. Dr. Johnson attained American College of Veterinary Pathologists board certification in 2007 and spent the following year in Montreal as a toxicological pathologist. She joined IDEXX Reference Laboratories in 2009. In her spare time, Dr. Johnson enjoys swimming, running and spending time outdoors with her rambunctious dogs.

Serena Liu, VMD, MS, DACVP

Anatomic Pathologist

Area(s) of interest: dermatopathology, surgical pathology

Dr. Liu graduated from Princeton University and the University of Pennsylvania School of Veterinary Medicine, and she completed a residency in anatomic pathology and an MS in comparative pathology at the University of California, Davis. She became a diplomate of the American College of Veterinary Pathologists in 1996. Dr. Liu worked for 8 years for IDEXX in West Sacramento, California, and is now an IDEXX consultant based in New York City. When in California, she developed an interest in dermatopathology under the mentorship of Dr. Thelma Lee Gross. Dr. Liu is the primary pathologist for the combined Dermatopathology/Clinical Dermatology service at IDEXX. She is a member of the International Society of Veterinary Dermatopathology and the American Academy of Veterinary Dermatology.

Geneviève Remmers, DVM, DACVP

Anatomic Pathologist

Area(s) of interest: bone pathology, bone marrow pathology, diagnostic pathology

Dr. Remmers received her DVM degree from the University of Montreal in 2008. Following graduation, she completed a residency in anatomic pathology at the University of Minnesota. Dr. Remmers attained American College of Veterinary Pathologists board certification in 2011. She is fluent in both French and English and is able to provide anatomic pathology consults in both languages. Outside of veterinary medicine, Dr. Remmers enjoys cooking, traveling and visiting friends and family along with spending time with her two dogs, Paco and Lola.

Anatomic pathology consultants, *continued*

Ravi Seebaransingh, BVetMed, MSc, MRCVS, DACVP

Anatomic Pathologist

Area(s) of interest: cytology, hematology

Dr. Seebaransingh graduated in 1991 from Royal Veterinary College, University of London. He worked in mixed practice, both private and government in Trinidad (Caribbean), before pursuing a master of science degree in pathobiology at University of Guelph in 1997. He then returned to Trinidad and worked at the National Veterinary Diagnostic Laboratory for 5 years and subsequently spent 8 years at the University of the West Indies School of Veterinary Medicine, where he lectured in general and systemic veterinary pathology to veterinary students, as well as provided gross and diagnostic pathology services on a wide range of species. Dr. Seebaransingh received board certification in 2009 and joined IDEXX in 2012. He enjoys photography, hiking, bird-watching and tai chi.
